New Business: Proposed Historic Preservation Ordinance

Celia Myers presented the revised draft of the proposed Historic Preservation Ordinance. Changes were highlighted. These included the removal of language to establish a Board of Architectural Review (BAR), giving the powers to oversee the historical program to the Planning Commission. Again, emphasis was given that this would be voluntary program. After the presentation, Commissioners and Council discussed the draft. Mr. Keehn questioned the voluntary nature of the program and if the designation stayed with the property or the property owner. Mrs. Myers clarified that the property

would be recorded with the designation, if approved, and would transfer to new owners. Mr. Keehn shared his concerns that this meant the program was not voluntary to new owners. He also shared his concerns that a developer could “flip houses” adding this designation, tying the hands of future owners. Chairman Grant countered that the Planning Commission and City Council would have to approve the designation and would notice if someone was attempting to create historic places en masse. Mayor Edwards added that only a few properties/structures would qualify for the program, further reducing this risk. Mr. Pace commented that the benefits for this proposed program would be for commercial properties more so than residential. When questioned, Mrs. Myers stated that the motivations on why to seek designation could vary. For one it may be to seek state and or national historical registry recognition, for another to signify their property as historic through a plaque or marker, for a third to assist in grant funding for renovations/repairs. Planning Commissioners Orr and Bunning added to this discussion. Mr. Underwood asked for confirmation that new owners should be notified of the designation prior to purchase and again asked for confirmation that the program would be voluntary. It was provided. Mr. Keehn questioned the inclusion of historic district language, fearing current or future property owners could be prevented from making the most of their property or feel pressured to join the program. Mrs. Myers tried to alleviate these concerns by stating that new construction would not be held to the same standards and that the program wouldn't affect the use of the property. Mr. Keehn stated he felt the district language should be removed. Ms. Melendez compared this ordinance to previous ordinances, adding that Council would have the ability to come back and tweak the language, should it not perform as expected. Chairman Grant thanked Council for the joint discussion. No action was taken on this item.

The meeting was turned back over to Mayor Edwards, who called for a brief recess at 6:05 PM.

At 6:10, Mayor Edwards called the meeting back to order.

Sanitation Truck Purchase: Mr. Pace informed that Council that staff had found a truck with a heavier chassis and a lower price. He moved to table the item pending further information; Mr. Underwood seconded. The motion to table the item on purchasing a sanitation truck was passed 6-0.

ORDINANCE 2023-01

CITY OF WALHALLA)

**AN ORDINANCE TO ESTABLISH A REGISTRATION FOR VACANT AND
ABANDONED BUILDINGS**

Whereas, the City of Walhalla desires to have its buildings occupied for homes and businesses to ensure a safe and healthy community; and

Whereas, vacant buildings can create health and safety hazards; and

Whereas, vacant buildings can become eyesores and a detriment on communities, affecting overall quality of life; and

Whereas, the City of Walhalla desires to have its vacant buildings registered for code enforcement and emergencies; and

NOW THEREFORE: it is ordained and enacted that: by the Mayor and Council members of the Municipality of Walhalla, in Council assembled, that the following ordinance, shall be as follows:

Section 1-1: Purpose.

(1) Vacant and abandoned properties create and pose significant and costly problems for the City. These properties often become a drain on the City budget and detract from the quality of life of the neighborhood and the City as a whole. Vacant buildings are an impediment to neighborhood and commercial redevelopment and rehabilitation, decrease property values, and prevent neighborhood stabilization. These structures are unsightly, often structurally unsound or otherwise dangerous, attract criminal activity, and otherwise create a threat to public health, safety, and welfare of neighboring properties and the general public.

(2) A significant obstacle in providing effective and prompt enforcement of the current City codes, as they relate to vacant buildings, is the inability to contact the owners of abandoned properties. These buildings are often also the subject of foreclosure actions by lien holders, which take considerable time to resolve.

(3) The purpose of this ordinance is to provide a just, equitable and practicable method for identifying, managing and responding to the numerous issues associated with vacant buildings that have been abandoned. This chapter is intended to prevent or mitigate dangers to health, safety and welfare, promote responsible management, provide a safe neighborhood for residents, safeguard property values, expedite housing repairs, and provide for prompt contact with owners or managers by police, fire, and code enforcement when issues or emergencies develop.

Section 1-2: Definitions

RE: F550 Ford Rear dump trash truck

DATE: 1/16/2023

Attached is the updated packet for the proposed small trash truck purchase. It was my misunderstanding about it being a side load, when in fact it is a rear load.

It is proposed to use funds from the insurance payout from the truck burned in the fire. These funds were placed into the Capital Improvement Fund. I know it was discussed that we would use this money for a "down payment" on the new front load that was included in the budget. However, Mr. Price has found this smaller truck and found that it would complement our operations and in fact may allow us to offer sanitation services to locations that are currently not available. Mr. Price's justification is attached as well. If our calculations are correct the purchase of this truck could

The current balance of the CIP Fund is \$310,886.67. We still have equipment to place on gov deals, so the account will be continue to be replenished.

Please let me know if you have any further questions.

Trash Truck

2023 Trash Truck purchase 140,112.32

Pick up between 175 and 250 roll carts.

Useful to pick up currently around 100-125 customers we currently don't service because the road is too small or there is no turnaround. This would generate between 30,600.00 and 38250.00 in revenue per year.

Gives us a back-up for the residential trucks which we currently do not have.

Great for catching up after holidays.

Great when we have call backs or when an area is missed due to construction or other road blockages.

Would be great for events when a large truck isn't needed.

Doesn't require a CDL to operate.

Performance predictions in this report represent an estimate of vehicle performance based on standard operating conditions. Variations in customer equipment, load configuration, ambient conditions, and/or operator driving techniques can cause significant variations in vehicle performance. These values are not representative of results that may be shown in actual dynamometer tests. This report should therefore be used as a guide for comparative vehicle performance.

New Business: Proposed Historic Preservation Ordinance

Celia Myers presented the revised draft of the proposed Historic Preservation Ordinance. Changes were highlighted. These included the removal of language to establish a Board of Architectural Review (BAR), giving the powers to oversee the historical program to the Planning Commission. Again, emphasis was given that this would be voluntary program. After the presentation, Commissioners and Council discussed the draft. Mr. Keehn questioned the voluntary nature of the program and if the designation stayed with the property or the property owner. Mrs. Myers clarified that the property

would be recorded with the designation, if approved, and would transfer to new owners. Mr. Keehn shared his concerns that this meant the program was not voluntary to new owners. He also shared his concerns that a developer could “flip houses” adding this designation, tying the hands of future owners. Chairman Grant countered that the Planning Commission and City Council would have to approve the designation and would notice if someone was attempting to create historic places en masse. Mayor Edwards added that only a few properties/structures would qualify for the program, further reducing this risk. Mr. Pace commented that the benefits for this proposed program would be for commercial properties more so than residential. When questioned, Mrs. Myers stated that the motivations on why to seek designation could vary. For one it may be to seek state and or national historical registry recognition, for another to signify their property as historic through a plaque or marker, for a third to assist in grant funding for renovations/repairs. Planning Commissioners Orr and Bunning added to this discussion. Mr. Underwood asked for confirmation that new owners should be notified of the designation prior to purchase and again asked for confirmation that the program would be voluntary. It was provided. Mr. Keehn questioned the inclusion of historic district language, fearing current or future property owners could be prevented from making the most of their property or feel pressured to join the program. Mrs. Myers tried to alleviate these concerns by stating that new construction would not be held to the same standards and that the program wouldn't affect the use of the property. Mr. Keehn stated he felt the district language should be removed. Ms. Melendez compared this ordinance to previous ordinances, adding that Council would have the ability to come back and tweak the language, should it not perform as expected. Chairman Grant thanked Council for the joint discussion. No action was taken on this item.

The meeting was turned back over to Mayor Edwards, who called for a brief recess at 6:05 PM.

At 6:10, Mayor Edwards called the meeting back to order.

Public Comments: Mayor Edwards called for any public comments. No one approached.

Administrator Comments: None provided.

In making this determination, the Commission shall consider, in addition to any other pertinent factors, the following criteria for each of the following acts:

1. Reconstruction, alteration, new construction or renovation: The Commission shall issue certificates of appropriateness for the above proposed actions if those actions conform in design, scale, building materials, setbacks and site features, and to the Secretary of Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings.

The Planning Commission remains responsible for approving or denying the certificate of appropriateness, should a variance be requested of and approved by the Board of Zoning Appeals.

- (h) *Deadline for approval or rejection of application for certificate of appropriateness:* The Commission shall approve or reject an application for a certificate of appropriateness within 30 days after the scheduled public hearing. Failure of the Commission to act within said 30 days shall constitute approval.
- (i) *Denial of application for certificate of appropriateness:*
 - (1) In the event the Commission rejects an application, it shall state its reasons for doing so, and shall transmit a record of such actions and reasons, in writing, to the applicant. The Commission may suggest alternative courses of action it thinks proper if it disapproves of the application submitted. The applicant may make modifications to the plans and may resubmit the application at any time after doing so.
 - (2) In cases where the application covers a material change in the appearance of a structure which would require the issuance of a building permit, the rejection of the application for a certificate of appropriateness by the Commission shall be binding upon the building inspector or other administrative officer charged with issuing building permits and, in such a case, no building permit shall be issued.
- (j) *Requirement of conformance with certificate of appropriateness:* All work performed pursuant to an issued certificate of appropriateness shall conform to the requirements of such certificate. In the event work is performed not in accordance with such certificate, the City code enforcement staff or designee shall issue a cease-and-desist order and all work shall cease.
- (k) *Certificate of appropriateness void if construction not commenced:* A certificate of appropriateness shall become void if construction is not commenced within 12 months of date of issuance. A certificate of appropriateness shall be issued for a period of 12 months and is renewable for one 12-month extension with staff approval.
- (l) *Recording an application for certificate of appropriateness:* The Commission shall keep a public record of all applications for certificates of appropriateness, and of all the Commission's proceedings in connection with said application.
- (m) *Appeals:* Any person adversely affected by any determination made by Community Development staff in the enforcement or interpretation of this ordinance may appeal such determination to the Board of Zoning Appeals, within ten (10) calendar days of the written determination. Any person adversely affected by any determination made by the Planning Commission may appeal such determination to the Courts of South Carolina pursuant to the South Carolina Code of Laws, Section 6-29-900 et sequitur.

SECTION 7. MAINTENANCE OF HISTORIC PROPERTIES AND BUILDING AND ZONING CODE PROVISIONS.

- (a) *Ordinary maintenance or repair:* Ordinary maintenance or repair of any exterior architectural or environmental feature in or on an historic property to correct deterioration, decay, or to sustain the existing form, and that does not involve a material change in design, material or

outer appearance thereof, does not require a certificate of appropriateness.

- (b) *Applicability of property maintenance code:* Property owners of historic properties or properties within historic districts shall be subject to the City's adopted property maintenance code.
- (c) *Affirmation of existing building and zoning codes:* Nothing in this article shall be constructed as to exempt property owners from complying with existing city building and zoning codes, nor prevent any property owner from making any use of this property not prohibited by other statutes, ordinances or regulations.

SECTION 8. PENALTY PROVISIONS,

Violations of any provisions of this article shall be punished in the same manner as provided for punishment of violations of validly enacted ordinances of the city.

SECTION 9. SEVERABILITY.

In the event that any section, subsection, sentence, clause or phrase of this article shall be declared or adjudged invalid or unconstitutional, such adjunction shall in no manner affect the other sections, sentences, clauses, or phrases of this article, which shall remain in full force and effect, as if the section, subsection, sentence, clause, or phrase so declared or adjudged invalid or unconstitutional were not originally part thereof.

Comprehensive Plan 10 Year Update

SC State Code

"All local governments that have adopted a local comprehensive plan in compliance with the provisions of Article 3, Chapter 29, Title 6 of the 1976 Code shall revise their local comprehensive plans to comply with the provisions of this act at the local government's next review of its local comprehensive plan as provided in Section 6-29-510(E) following the effective date of this act."

SECTION 6-29-510. Planning process; elements; comprehensive plan.

(A) The local planning commission shall develop and maintain a planning process which will result in the systematic preparation and continual re-evaluation and updating of those elements considered critical, necessary, and desirable to guide the development and redevelopment of its area of jurisdiction.

(B) Surveys and studies on which planning elements are based must include consideration of potential conflicts with adjacent jurisdictions and regional plans or issues.

(C) The basic planning process for all planning elements must include, but not be limited to:

- (1) inventory of existing conditions;
- (2) a statement of needs and goals; and
- (3) implementation strategies with time frames.

(D) A local comprehensive plan must include, but not be limited to, the following planning elements:

(1) a population element which considers historic trends and projections, household numbers and sizes, educational levels, and income characteristics;

(2) an economic development element which considers labor force and labor force characteristics, employment by place of work and residence, and analysis of the economic base;

(3) a natural resources element which considers coastal resources, slope characteristics, prime agricultural and forest land, plant and animal habitats, parks and recreation areas, scenic views and sites, wetlands, and soil types. Where a separate board exists pursuant to this chapter, this element is the responsibility of the existing board;

(4) a cultural resources element which considers historic buildings and structures, commercial districts, residential districts, unique, natural, or scenic resources, archaeological, and other cultural resources. Where a separate board exists pursuant to this chapter, this element is the responsibility of the existing board;

(5) a community facilities element which considers water supply, treatment, and distribution; sewage system and wastewater treatment; solid waste collection and disposal, fire protection, emergency medical services, and general government facilities; education facilities; and libraries and other cultural facilities;

(6) a housing element which considers location, types, age, and condition of housing, owner and renter occupancy, and affordability of housing. This element includes an analysis to ascertain nonessential housing regulatory requirements, as defined in this chapter, that add to the cost of developing affordable housing but are not necessary to protect the public health, safety, or welfare and an analysis of market-based incentives that may be made available to encourage development of affordable housing, which incentives may include density bonuses, design flexibility, and streamlined permitting processes;

(7) a land use element which considers existing and future land use by categories, including residential, commercial, industrial, agricultural, forestry, mining, public and quasi-public, recreation, parks, open space, and vacant or undeveloped;

(8) a transportation element that considers transportation facilities, including major road improvements, new road construction, transit projects, pedestrian and bicycle projects, and other elements of a transportation network. This element must be developed in coordination with the land use element, to ensure transportation efficiency for existing and planned development;

(9) a priority investment element that analyzes the likely federal, state, and local funds available for public infrastructure and facilities during the next ten years, and recommends the projects for expenditure of those funds during the next ten years for needed public infrastructure and facilities such as water, sewer, roads, and schools. The recommendation of those projects for public expenditure must be done through coordination with adjacent and relevant jurisdictions and agencies. For the purposes of this item, "adjacent and relevant jurisdictions and agencies" means those counties, municipalities, public service districts, school districts, public and private utilities, transportation agencies, and other public entities that are affected by or have planning authority over the public project. For the purposes of this item, "coordination" means written notification by the local planning commission or its staff to adjacent and relevant jurisdictions and agencies of the proposed projects and the opportunity for adjacent and relevant jurisdictions and agencies to provide comment to the planning commission or its staff concerning the proposed projects. Failure of the planning commission or its staff to identify or notify an adjacent or relevant jurisdiction or agency does not invalidate the local comprehensive plan and does not give rise to a civil cause of action;

(10) a resiliency element that considers the impacts of flooding, high water, and natural hazards on individuals, communities, institutions, businesses, economic development, public infrastructure and facilities, and public health, safety and welfare. This element includes an inventory of existing resiliency conditions, promotes resilient planning, design and development, and is coordinated with adjacent and relevant jurisdictions and agencies. For the purposes of this item, "adjacent and relevant jurisdictions and agencies" means those counties, municipalities, public service districts, school districts, public and private utilities, transportation agencies, and other public entities that are affected by or have planning authority over the public project. For the purposes of this item, "coordination" means written notification by the local planning commission or its staff to adjacent and relevant jurisdictions and agencies of the proposed projects and the opportunity for adjacent and relevant jurisdictions and agencies to provide comment to the planning commission or its staff concerning the proposed projects. Failure of the planning commission or its staff to identify or notify an adjacent or relevant jurisdiction or agency does not invalidate the local comprehensive plan and does not give rise to a civil cause of action. This element shall be developed in coordination with all preceding elements and integrated into the goals and strategies of each of the other plan elements.

(E) All planning elements must be an expression of the planning commission recommendations to the appropriate governing bodies with regard to the wise and efficient use of public funds, the future growth, development, and redevelopment of its area of jurisdiction, and consideration of the fiscal impact on property owners. The planning elements whether done as a package or in separate increments together comprise the comprehensive plan for the jurisdiction at any one point in time. The local planning commission shall review the comprehensive plan or elements of it as often as necessary, but not less than once every five years, to determine whether changes in the amount, kind, or direction of development of the area or other reasons make it desirable to make additions or amendments to the plan. The comprehensive plan, including all elements of it, must be updated at least every ten years.

SECTION 6-29-520. Advisory committees; notice of meetings; recommendations by resolution; transmittal of recommended plan.

CITY OF WALHALLA PLANNING COMMISSION

Chris Grant, Chair
Jessie Bunning
William Tatum

Kelvin Bryant, Vice Chair
Regina Orr

(A) In the preparation or periodic updating of any or all planning elements for the jurisdiction, the planning commission may use advisory committees with membership from both the planning commission or other public involvement mechanisms and other resource people not members of the planning commission. If the local government maintains a list of groups that have registered an interest in being informed of proceedings related to planning, notice of meetings must be mailed to these groups.

(B) Recommendation of the plan or any element, amendment, extension, or addition must be by resolution of the planning commission, carried by the affirmative votes of at least a majority of the entire membership. The resolution must refer expressly to maps and other descriptive matter intended by the planning commission to form the whole or element of the recommended plan and the action taken must be recorded in its official minutes of the planning commission. A copy of the recommended plan or element of it must be transmitted to the appropriate governing authorities and to all other legislative and administrative agencies affected by the plan.

(C) In satisfying the preparation and periodic updating of the required planning elements, the planning commission shall review and consider, and may recommend by reference, plans prepared by other agencies which the planning commission considers to meet the requirements of this article.

SECTION 6-29-530. Adoption of plan or elements; public hearing.

The local planning commission may recommend to the appropriate governing body and the body may adopt the plan as a whole by a single ordinance or elements of the plan by successive ordinances. The elements shall correspond with the major geographical sections or divisions of the planning area or with functional subdivisions of the subject matter of the comprehensive plan, or both. Committees meet *as needed* throughout the year. Mayor appoints the committee and the committee elects the chair. Mayor is the finance & admin chair. Mayor Pro-Temp is elected at the first meeting of every calendar year.

Dept heads send reports to City Admin who then sends to committee chair. Chair gives the report at the council meeting. Dept heads are there to answer questions.
