- (d) *Designation of a historic property:* A historic property is a building, structure, site, or object; including the adjacent area necessary for the proper appreciation or use thereof, deemed worthy of preservation by reason of value to the City for one of the following reasons:

  - (9) It has yielded, or may be likely to yield, information important in pre-history or history.
  - (10) Property is listed on the South Carolina Register of Historical Resources; eligible for the South Carolina Register of Historical Resources; listed on the National Register of Historic Places; or eligible for the National Register of Historic Places.
- (e) *Requirements for adopting an ordinance for the designation of historic districts and historic properties:*
- (1) Any ordinance designating any property or district as historic shall:
    - a. List each property in a proposed historic district or describe the proposed individual historic property;
    - b. Set forth the name(s) of the owner(s) of the designated property or properties;
    - c. Require that a certificate of appropriateness be obtained from the Commission prior to any material change in appearance of the designated property; and
    - d. Require that the property or district be shown on the official zoning map of the city and be kept as a public record to provide notice of such designation.
  - (2) The Planning Commission and/or City Council shall hold a public hearing on any proposed ordinance for the designation of any historic district or property, following the established public notice requirements of the City.
  - (3) The Planning Commission shall transmit its recommendation to City Council, following its public meeting.
  - (4) Following receipt of the Commission recommendation, the City Council may adopt the ordinance as proposed, may adopt the ordinance with any amendments they deem necessary, or reject the ordinance.

## **SECTION 6. APPLICATION FOR CERTIFICATE OF APPROPRIATENESS (COA).**

- (a) *Approval of material change in appearance in historic districts or involving historic properties:* After the designation by ordinance of a historic property or a historic district, no material change in the appearance of such historic property, or of a contributing or non-contributing building, structure, site or object within such historic district, shall be made or be permitted to be made by the owner or occupant thereof, unless or until the application for a certificate of appropriateness has been submitted to and approved by the Commission. A building permit shall not be issued without a certificate of appropriateness. A separate zoning permit shall not be required for work requiring a COA.
- (b) *Submission of supporting documentation to Commission:* An application for a certificate of appropriateness shall be accompanied by supporting documentation, such as drawings, plans, photographs, etc. as may be required by the Commission.
- (c) *Interior alterations:* In its review of applications for certificates of appropriateness, the Commission shall not consider interior arrangement or use having no effect on exterior architectural features.
- (d) *Technical advice:* The Commission shall have the power to seek technical advice from outside its members on any application.
- (e) *Public hearings on applications for certificates of appropriateness:* The Commission shall schedule and hold a public hearing at which the proposed certificate of appropriateness is discussed. Notice of the hearing shall be published in the newspaper of general circulation. The subject property shall be posted; and all adjacent property owners of the subject property shall be notified of the request and hearing.
- (f) *Commission Actions to Applications for Certificate of Appropriateness:*
  - (1) Commission action: The Commission may approve the certificate of appropriateness as proposed, approve the certificate of appropriateness with any modifications it deems necessary, or reject it.
    - a. The Commission shall approve the application and issue a certificate of appropriateness if it finds that the proposed material change(s) in the appearance would not have a substantial adverse effect on the aesthetic, historic, or architectural significance and value of the historic property or the historic district.  
In making this determination, the Commission shall consider, in addition to any other pertinent factors, the following criteria for each of the following acts:
      - 1. Reconstruction, alteration, new construction or renovation: The Commission shall issue certificates of appropriateness for the above proposed actions if those actions conform in design, scale, building materials, setbacks and site features, and to the Secretary of Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings.
      - 2. Relocation: A decision by the Commission approving or denying a certificate of appropriateness for the relocation of a building, structure, or object shall be guided by:
        - i. Whether the present setting of the building contributes to its historic character and aesthetic interest.
        - ii. Whether there are definite plans for the area to be vacated and what the effect of those plans on the character of the surrounding area will be.

- iii. Whether the building, structure or object can be moved without significant damage to its physical integrity.
    - iv. Whether the proposed relocation area is compatible with the historical and architectural character of the building, structure, site or object.
  - 3. Demolition: A decision by the Commission approving or denying a certificate of appropriateness for the demolition of buildings, structures, sites, or objects shall be guided by:
    - i. The historic, scenic or architectural/significance of the building, structure, site, or object.
    - ii. The importance of the building, structure, site, or object to the ambiance of a district.
    - iii. The difficulty or the impossibility of reproducing such a building, structure, site, or object because of its design, texture, material, detail, or unique location.
    - iv. Whether the building, structure, site, or object is one of the last remaining examples of its kind in the neighborhood or the city.
    - v. Whether there are definite plans for use of the property if the proposed demolition is carried out, and what the effect of those plans on the character of the surrounding area would be.
    - vi. Whether reasonable measures can be taken to save the building, structure, site, or object from collapse.
    - vii. Whether the building, structure, site, or object is capable of earning reasonable economic return on its value.
- (g) *Undue hardship*: When, by reason of unusual circumstances, the strict application of any provision of this article would result in the exceptional practical difficulty or undue economic hardship upon any owner of a specific property, the Board of Zoning Appeals shall have the power to vary or modify strict provisions, so as to relieve such difficulty or hardship: provided such variances, modifications, interpretations remain in harmony with the general purpose and intent of said provisions, so that the architectural or historical integrity, or character of the property shall be conserved and substantial justice done. In granting variances, the Board of Zoning Appeals may impose such reasonable and additional stipulations and conditions as will, in its judgement, best fulfill the purpose of this article. An undue hardship shall not be a situation of the person's own making. The Planning Commission remains responsible for approving or denying the certificate of appropriateness, should a variance be requested of and approved by the Board of Zoning Appeals.
- (h) *Deadline for approval or rejection of application for certificate of appropriateness*: The Commission shall approve or reject an application for a certificate of appropriateness within 30 days after the scheduled public hearing. Failure of the Commission to act within said 30 days shall constitute approval.
- (i) *Denial of application for certificate of appropriateness*:
  - (1) In the event the Commission rejects an application, it shall state its reasons for doing so, and shall transmit a record of such actions and reasons, in writing, to the applicant. The Commission may suggest alternative courses of action it thinks proper if it disapproves of the application submitted. The applicant may make modifications to the plans and may

resubmit the application at any time after doing so.

- (2) In cases where the application covers a material change in the appearance of a structure which would require the issuance of a building permit, the rejection of the application for a certificate of appropriateness by the Commission shall be binding upon the building inspector or other administrative officer charged with issuing building permits and, in such a case, no building permit shall be issued.
- (j) *Requirement of conformance with certificate of appropriateness:* All work performed pursuant to an issued certificate of appropriateness shall conform to the requirements of such certificate. In the event work is performed not in accordance with such certificate, the City code enforcement staff or designee shall issue a cease-and-desist order and all work shall cease.
- (k) *Certificate of appropriateness void if construction not commenced:* A certificate of appropriateness shall become void if construction is not commenced within 12 months of date of issuance. A certificate of appropriateness shall be issued for a period of 12 months and is renewable for one 12-month extension with staff approval.
- (l) *Recording an application for certificate of appropriateness:* The Commission shall keep a public record of all applications for certificates of appropriateness, and of all the Commission's proceedings in connection with said application.
- (m) *Appeals:* Any person adversely affected by any determination made by Community Development staff in the enforcement or interpretation of this ordinance may appeal such determination to the Board of Zoning Appeals, within ten (10) calendar days of the written determination. Any person adversely affected by any determination made by the Planning Commission may appeal such determination to the Courts of South Carolina pursuant to the South Carolina Code of Laws, Section 6-29-900 et sequitur.

## **SECTION 7. MAINTENANCE OF HISTORIC PROPERTIES AND BUILDING AND ZONING CODE PROVISIONS.**

- (a) *Ordinary maintenance or repair:* Ordinary maintenance or repair of any exterior architectural or environmental feature in or on an historic property to correct deterioration, decay, or to sustain the existing form, and that does not involve a material change in design, material or outer appearance thereof, does not require a certificate of appropriateness.
- (b) *Applicability of property maintenance code:* Property owners of historic properties or properties within historic districts shall be subject to the City's adopted property maintenance code.
- (c) *Affirmation of existing building and zoning codes:* Nothing in this article shall be constructed as to exempt property owners from complying with existing city building and zoning codes, nor prevent any property owner from making any use of this property not prohibited by other statutes, ordinances or regulations.

## **SECTION 8. PENALTY PROVISIONS,**

Violations of any provisions of this article shall be punished in the same manner as provided for punishment of violations of validly enacted ordinances of the city.

## **SECTION 9. SEVERABILITY.**

In the event that any section, subsection, sentence, clause or phrase of this article shall be declared or adjudged invalid or unconstitutional, such adjunction shall in no manner affect the other sections, sentences, clauses, or phrases of this article, which shall remain in full force and effect, as if the section, subsection, sentence, clause, or phrase so declared or adjudged invalid or unconstitutional were not originally part thereof.

## Trash Truck

2023 Trash Truck purchase 140,112.32

Pick up between 175 and 250 roll carts.

Useful to pick up currently around 100-125 customers we currently don't service because the road is too small or there is no turnaround. This would generate between 30,600.00 and 38250.00 in revenue per year.

Gives us a back-up for the residential trucks which we currently do not have.

Great for catching up after holidays.

Great when we have call backs or when an area is missed due to construction or other road blockages.

Would be great for events when a large truck isn't needed.

Doesn't require a CDL to operate.
