Mayor opened up for public comment

Jared Ketterman states room should be rented 45 days the state and county is 89 days or less and single family dwelling rental requirements stated 30 days (City) or more as long term rental. He just wants to make sure all documents are on the same page especially working back to other codes for zoning requirements. He inquired also about the word permit. Is it a zoning permit or approval letter is there a fee associated? Are we supposed to intentionally eliminate permit and add approval letter? When they get the permit they can also get the approval letter to operate the Airbnb. Ketterman inquired what the fee would be. Administrator Burton advised it depends on if council wants to keep the zoning permit and the registration sheet or another permit in addition to this. Mayor Edwards stated there are two separate things there. The zoning permit is not the same thing as a short term rental permit. The short term rental permit was taken away but the zoning permit is still going to be there. Mayor Edwards clarifies a zoning permit is required anytime a house is built or property use has changed not necessarily Airbnb but could be. Ketterman asked are existing Airbnb's grandfathered in? Administrator Burton said that was not the intent. Ketterman also reads non-transferable in two different ways (page 2 letter B) approvals are non-transferable and only valid for the short term property described in the zoning permit will these convey under real estate sale or is this only reading that it can't be used on short term rental permit on that house for another house down the block? Administrator Burton answered you would have to get a zoning permit for each property. Ketterman inquired if the words non-transferable is just for the physical address or if the house is sold during the remaining 8 months of the permit. Administrator Burton stated no it would be under a different ownership. Ketterman inquires about the property management plan he doesn't understand the one hour requirement. Ketterman wants clarification on fees and wants it revisited. Ketterman wants to know where to find applicable codes. Administrator Burton stated it was adopted by the ICC codes for existing residential for existing commercial fire code and all of the adoptive codes.

Ketterman asked how do you remit your Accommodation tax and will there be a portal online. He states there needs to be checks and balances. Administrator Burton met with County Administrator and they are working on that. Mayor Edwards states he had a motion to table this with a second. Mayor Edwards wanted it to go back to Mrs. Myers. Financial Policies

I. Purpose

The purpose of this policy is to define the fiscal procedures for the development and execution of the city's operating and capital outlay budgets, along with the management of the city's debt and economic investments. Undergirding these procedures and this policy are the principles of sound fiscal management, fiscal stability, Generally Accepted Accounting Principles (GAAP) and the mission and vision of City Council.

II. Operating Budget Policy

The annual operating budget is the vehicle through which City Council authorizes City government to fund operations during a specific fiscal year for specific purposes and which establishes the economic resources that are required to support these activities. The budget is a fiscal, planning, and policy document, reflecting the allocation of limited revenues among diverse uses.

- A. According to the laws of the State of South Carolina, the city will adopt a balanced operating budget, annually, and provide full disclosure when a deviation from a balanced operating budget is planned or when it occurs.
- B. The term of the fiscal year is July 1 – June 30.
- C. The City Administrator will monitor the financial condition of the city and estimate present and future financial needs.
- D. Department heads will be accountable for the implementing department budgets in a manner that accomplishes the programs and objectives for which the budgets were authorized, and ensuring that their respective budgets stay within the prescribed funding levels.
- E. Departments must stay within budget by each major expense category of personnel, operating, and capital; Budget transfers or shifts in departmental budgets must be authorized by the City Administrator; provided that overall budget appropriations do not change without the approval of the City Council.
- F. The city will develop a program to integrate performance measures and productivity indicators with the annual budget.

- G. The city will maintain a risk management program to provide for protection against loss and a reduction in exposure to liability.

III. Revenues

The city will maximize and diversify its revenue base to raise sufficient revenue to support essential city services and to maintain services during periods of declining economic activity. The city must be sensitive to the balance between the need for services and the city's ability to raise fees, charges, and taxes to support those services.

- A. The city shall conservatively estimate annual revenue increases.
- B. All surpluses above the budgeted revenue estimates will be available to the city for appropriation through the city's budget monitoring and approval processes. Additional appropriations will be used for activities that support the function or program generating the additional fees.
- C. Overall revenue shortfalls requiring additional discretionary General Fund resources will result in a city current appropriation level reduction. In the event of a current fiscal year projected total revenue shortfall, the city will document other offsetting revenues or reduce its budget within the regular budget monitoring process. Transfers from the city's General Fund balance to cover revenue shortfalls shall not occur without City Council authorization.
- D. The city will maintain a diversified and stable revenue base to reduce the effects of short-term fluctuations in any one revenue source.
- E. All enterprise funds will be self-supporting. The city will establish all user charges fees at a level related to the full costs (operating, direct, indirect and capital) of providing the service. The city will review these fees & charges annually in the budget process and target rates that meet the cost to provide the service.
- F. Charges for services that benefit specific users should recover full costs, including all direct costs, General Fund overhead, loss of interest and depreciation on capital assets. Through a cost allocation program, city overhead rates and General Fund overhead allocations will be established annually by the Finance Department.
- G. Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. Expenditures in these funds are strictly limited to the mandates of the funding source. Special Revenue Funds are not to be used to subsidize other funds, except as required or permitted by program regulations.
- H. One-time sources such as proceeds from asset sales, debt refinancing, one-time grants, revenue spikes, budget savings and similar non-recurring revenue shall not be used for current or new ongoing operating expenses. Appropriate uses of one-time resources include:
 - **Rebuilding General Fund Balance**
 - **Establishing or rebuilding and Emergency Reserve or Contingency Fund**

- **Early retirement of debt**
- **Funding capital expenditures and/or other non-recurring expenditures**

- I. The city will actively seek grant funding to fund both operating and capital expenditures. Prior to the acceptance of grant funding, an elevation of the grant must determine the following:
 - The grant purpose is compatible with city program objectives
 - The benefits provided by the grant exceed the cost of administration
 - The grant does not commit the city to long-term tax funded expenditures after the completion of the grant period.

The city will evaluate the cost and funding source to determine whether to continue the service when the grant period ends. The decision to continue to fund or drop will be made prior to accepting the grant. Alternatively, the city could choose to continue the service with other funding.

IV. Expenditures

The city will provide for a balanced budget, annually, whereby the current operating revenues will be sufficient to support current operating expenditures. An appropriate balance will be maintained between budget dollars provided for direct public services and dollars provided to assure good management and legal compliance. In addition to the City Administrator and the Chief Financial Officer, all department heads share in the responsibility of understanding the city's long-term financial viability, its general spending trends, its projected incomes, and educating themselves, and employees on the necessary short and long-term balance between revenues and expenditures.

- A. High priority is given to expenditures that will reduce future operating costs, such as increased utilization of technology and equipment and proven business methods.
- B. The annual expenditures shall not exceed the annual revenues (operating budget minus capital outlay)
- C. Before the City undertakes and agreements that would create fixed ongoing expenses, the cost implications of such agreements will be estimated for current and future years with the aid of strategic financial planning models.
- D. Organizations that are not part of the City, but which receive funding from the City, shall not have their appropriation carried forward from the year to year unless contractually authorized and directed by City Council.

V. Debt Policy

The city's debt policy establishes the parameters for issuing debt, managing its debt portfolio within available resources and within the legal debt margin as defined by South Carolina Statutes and minimizing the costs to the taxpayer. Adherence to this policy will help assure maintenance of the city's AA credit ratings and undergird any future credit rating.

- A. Long-term debt or bond financing will not be used to finance current operating expenditures.
- B. All bonds, notes, contracts, accounts payable, and other monetary liabilities will be paid when due and shall have the most superior lien position during the allocation of resources in budget planning.
- C. Capital projects, financed through the issuance of bonds, shall be financed for a period not to exceed the expected useful life of the project.
- D. The general obligation debt of the city shall not exceed 8% of the assessed valuation of taxable property in the city in accordance with South Carolina State Statute, without a referendum approving such debt.
- E. Annual general obligation debt service shall not exceed 20% of total operating revenue.
- F. The city will attempt to use the lease-purchase of Capital Outlay, for equipment and heavy vehicles having a useful life of at least five years or more.

VI. 10 Year Financial Forecast

The city will prepare a 10-year financial forecast that will include projections for annual growth plus allowances for operating costs of new capital facilities. The forecast will provide the financial health of all major funds and assess the financial implications of current and proposed policies, programs, and assumptions. The forecast will include potential alternatives to improving the long-term financial health of the city.

VII. Capital Improvement Program

The city will maintain the Capital Improvement Fund and designate said funds for the implementation of capital projects. The city will prepare and adopt a 10-year Capital Improvement Program, annually, that will detail each capital project, the estimated cost, and funding source.

Moneys in the general government capital improvement fund shall be used to fund all capital improvement projects for general governmental purposes, other than those designated to be funded special assigned funds and to pay debt service on debt obligations incurred to finance such general government capital improvement projects, as authorized by the council in the annual budget.

In adopting the annual budget, and from time to time, the council may provide for the deposit of revenues collected by the city from taxes (by ordinance), loans, grants, or any other source to the general government capital improvement fund in amounts sufficient to fund the expenditures budgeted in that fund.

- A. Operating expenditures will be programmed to include the cost of implementing the Capital Improvement Plan as required.
- B. Capital assets shall be purchased and maintained on a regular schedule.
- C. Within the legal limits of South Carolina Statute and the constraints of operating budgets, debt shall be issued for the purchase of capital assets, including major renovations.

- D. An amount determined annually by council shall be deposited into the Capital Improvement Fund from general appropriations.
- E. Lease purchases will be considered before the use of Capital Improvement Fund balance for capital equipment and fleet.

VIII. Accounting Policy

The city will establish and maintain accounting systems according to the generally accepted accounting principles (GAAP) and standards of the Government Accounting Standards Board (GASB).

- A. An annual audit will be performed and completed no longer than six (6) months from the end of the prior fiscal year by an independent public accounting firm that will issue an official opinion on the comprehensive annual financial report (CAFR) with a management letter detailing areas that need improvement, if required.
- B. Full disclosure will be provided in the financial statements and bond representations.
- C. A management letter, the by-product of an annual audit, shall be presented by the independent certified public accounting firm no later than 60 days from issuance of the city's CAFR.
- D. Financial systems will be maintained to monitor expenditures and revenues on a monthly basis with a thorough analysis and adjustment (if required) quarterly.
- E. All revenue collections will be consolidated under the Finance Department (or Chief Financial Officer) and be audited at least annually.
- F. The city will maintain an internal control system that safeguard assets and provide reasonable assurances (e.g., noting any changes in finance statements) for the proper recording of the financial transactions of the city.
- G. The city shall establish accounting procedures to ensure that moneys deposited in the general government capital improvement fund from grants, loans or any other dedicated funding source are accounted for and expended in a manner consistent with the terms and conditions of the legislation or contractual agreements governing such funding sources.
- H.

IX. Fund Balance Program

The term fund balance is used to describe the net assets or equity of a governmental fund. The fund balance is intended to serve as a measure of the financial resources available in that fund. GAAP distinguishes five types of fund balance, nonspendable, restricted, committed, assigned, and unassigned.

Nonspendable fund balance is restricted basically because of the form.

Restricted fund balance has external limitations on use.

Committed fund balance is city council designations made before the end of the fiscal year.

Assigned fund balance is city council designations for the intended use.

Unassigned is the total fund balance in excess of nonspendable, restricted, committed, and assigned.

- A. Nonspendable and Restricted Fund Balance – Fund balance reserves indicates that some of the fund net assets are not available for discretionary appropriations and expenditures. Generally, this is due to a legal or contractual commitment to an outside entity. It does not include tentative plans of management or council.
- B. Committed Fund Balance – City Council may commit a portion of fund balance for specific uses, as long as it is done by the year end. Committed fund balances are considered as reserved.
- C. Unassigned Fund Balance – Unassigned fund balance is available for appropriation. City Council may either assign a portion of fund balance to indicate tentative plans of use or assign a portion for contingencies. Fund Balance that is assigned is considered unreserved.
 - 1) **Unreserved – Assigned Fund Balance**
 - a) **Assigned Fund Balance-Contingency**

To help maintain services during short periods or economic decline and to meet emergency conditions, in addition to any other restricted or committed Fund Balance amounts, the budget shall provide for a contingency designation equivalent to 180 days of estimated annual operating revenues in all governmental type funds. The contingency shall also be exclusive of all fund balance types not anticipated to be readily available for use in emergencies. The contingency is established to provide for nonrecurring unanticipated expenditures.
 - b) **Committed/Assigned Fund Balance – Other Council Designations** Council may at its discretion designate any portion of available unassigned fund balance as long as the remaining fund balance allows for unreserved unassigned fund balance to be maintained at no less than 10 percent of regular general fund annual operating revenues.
 - 2) **Unreserved – Unassigned Fund Balance**

At a minimum, maintain unreserved, unassigned fund balance in the general fund of no less than 10 percent of regular general fund annual operating revenues. The calculated unreserved, unassigned fund balance shall be exclusive of all other fund balance components not anticipated to be readily available for use in emergencies and contingencies.

X. Depository/Investment Policy

- B. - C. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective will be to mitigate credit risk and interest rate risk.
- D. All investments are authorized by City Council and are consistent with GFOA policies and statements.
- E. Current operating funds (30-day demand deposits) will be maintained in interest bearing checking accounts.

Where practicable, such accounts will be structured to ensure availability of funds without incurring unnecessary penalties upon withdrawal.
- H. Full collateralization will be required on all demand deposit accounts, including checking accounts and non-negotiable certificates of deposit.
- I. The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs.
- J. Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions.

The Housing Chapter in the City's Comprehensive Plan (2015)</p>

identifies the goals of (1) Continued blend of renovation, rehabilitation and new housing constructions; (2) Encouragement of Planned Unit Developments in large undeveloped tracts to promote mixed housing; (3) Provision a mixture of housing choices for all income levels; and a policy to tailor its land use objectives to ensure a proper amount of affordable housing.

From: Todd and Kimberly Rupprecht

Walhalla, SC 29691

Dear Council members: My wife and I are very disheartened to find out that the property next to ours is being considered, to be re-zoned as multi-family property. The property is the corner of N. Poplar St., and Frank Martin Dr.

We bought and built on this property knowing we were in a single- family zoned area. We do not want duplexes or any other type of multi-family dwellings in our neighborhood. We have absolutely no problem with single family homes being built next to us.

Walhalla as of late has had a building explosion with houses going up everywhere. We understand Walhalla is a desirable place to live, that is why we live here. Our neighborhood is a quiet, nice older quaint area with single family homes. We do not want that to change.

We are gathering names of neighbors and concerned citizens who want the same thing. We want to keep our neighborhoods the way they were when we purchased or built our homes.

We were told a development company bought this property. We understand companies are in business to make money. We have no problem with that. We have a problem with them trying to change the zoning for their profit.

We do not want our neighborhood to change. As we said earlier in the letter, we bought our properties here because they are zoned single family.

Todd and Kimberly Rupprecht.

Request to rezone +/- 2.19 acres at the corner of Frank Martin Dr and N Poplar St from R-25 to MFR

Staff Evaluation

- This request is to rezone two (2) parcels of property described above from R-25 (Single Family Residential) to MFR (Multi-Family Residential). The reasoning is to allow the construction of 12 duplex or quad multi-family homes.
- The purpose of the R-25 Zoning District is to provide for low density single-family residential purposes on lots not small than 25,000 square feet and discourage any encroachment by commercial, industrial or other use capable of adversely affecting the residential character of the district.
- The purpose of the MFR Zoning District is to provide for medium and high-density residential purposes on lots or parcels not less than 15,000 square feet and to discourage unwarranted uses capable of adversely affecting the residential character of the district.

Request to rezone +/- 2.19 acres at the corner of Frank Martin Dr and N Poplar St from R-25 to MFR

Staff Evaluation Continued

- Residential uses and zoning surround the subject parcels. The Housing Chapter in the City's Comprehensive Plan (2015) identifies the goals of
 - (1) Continued blend of renovation, rehabilitation and new housing constructions;
 - (2) Encouragement of Planned Unit Developments in large undeveloped tracts to promote mixed housing;
 - (3) Provision a mixture of housing choices for all income levels; and a policy to tailor its land use objectives to ensure a proper amount of affordable housing.

Request to rezone +/- 2.19 acres at the corner of Frank Martin Dr and N Poplar St from R-25 to MFR

Staff Recommendation

- Due to its compatibility with adjacent zoning of the area and the Housing and Future Land Use chapter of the 2015 Comprehensive Plan, staff recommends approval of this request.

Petition Opposing the Rezoning Request

Staff was presented a petition, with 32 unique signatures by residents, representing 19 properties. (Duplicates were removed.) Of the 19 properties represented, 7 are within a 1,000 ft radius of the subject property. Several were up to and exceeded 1 mile in distance.

Property Owners within 150 feet

Current Zoning Ordinance language states “a statement of the names and addresses of the owners of all lots within 150 feet of the lots which will be affected by the proposed amendment” be included in the rezoning application packet.

A listing of all property owners within 150 feet of the rezoning request is enclosed. Of the ten (10) properties, three (3) are signatories on the petition opposing the requested rezoning, 30%.

Property Owners within 1,000 feet

A listing of all property owners within 1,000 feet of the rezoning request is enclosed. Of the seventy-five (75) parcels, seven (7) are signatories on the petition opposing the requested rezoning, roughly 9.3%

Map of Multi-Family Residential Zoned Parcels (attached)

Of the parcels zoned MFR, most are already built out and currently used as multi-family residential. Land between N Broad and Frank Martin is currently zoned MFR, but is either used as single-family or is currently undeveloped. Land around Burrells Circle is zoned MFR, but is currently undeveloped. Land at the corner of S Spring and S Broad is currently zoned MFR, but is undeveloped.

As a reminder, single-family residential is a permitted use under MFR zoning.

The property in question is adjacent to MFR zoned parcels.

Evaluation: This request is to rezone eight (8) parcels of property described above from GR (General Residential) to OC (Office Commercial). The reasoning is to better reflect the existing land uses and to provide a transition zone between the established residential and commercial districts.

The purpose of the GR Zoning District is provide for medium-density residential purposes on lots not less than 5,000 square feet in size.

The purpose of the OC Zoning District is to provide for local or neighborhood-oriented business and compatible residential use purposes.

Both commercial and residential uses are adjacent to the subject parcels. The Future Land Use Chapter in the City's Comprehensive Plan (2015) identifies the goal of expanding of the downtown business district in an orderly manner, as well as policies to review the current zoning, make amendments as needed and to consider mixed use if compatible.

Public Outreach:

Staff hereby certifies that the following public notification actions have been completed:

- Rezoning notification letters were sent to the affected property owners and adjacent property owners of the subject properties;
- Public hearing notice was posted on the City's website;
- Planning Commission public hearing notice published in the *Seneca Journal*

Public Feedback:

To date, staff has received two phone calls requesting more information.

Staff Recommendation:

Due to its previous and current use; its compatibility with the character of the area and the Future Land Use chapter of the 2015 Comprehensive Plan, and its ability to act as a transition zone between the established residential (GR) and commercial (CC) districts, staff recommends approval of this request.

SECTION 5-7-10. Scope of chapter.

The provisions of this chapter provide for the structure, organization, powers, duties, functions and responsibilities of municipalities under all forms of municipal government provided for in Chapters 9, 11 and 13 unless otherwise specifically provided for in those chapters. The powers of a municipality shall be liberally construed in favor of the municipality and the specific mention of particular powers shall not be construed as limiting in any manner the general powers of such municipalities.

HISTORY: 1962 Code Section 47-30; 1975 (59) 692.

SECTION 5-7-12. School resource officers; procedures for certain arrests; jurisdiction; employment rights.

(A) The governing body of a municipality or county may upon the request of another governing body or of another political subdivision of the State, including school districts, designate certain officers to be assigned to the duty of a school resource officer and to work within the school systems of the municipality or county. The person assigned as a school resource officer shall have statewide jurisdiction to arrest persons committing crimes in connection with a school activity or school-sponsored event. In all circumstances in which a school resource officer arrests a student for a misdemeanor offense, the officer may issue a courtesy summons to appear to a student involved in the particular incident in connection with a school activity or school-sponsored event. Notwithstanding another provision of law, a student arrested for a misdemeanor offense by a school resource officer must have a bond hearing in magistrates court within twenty-four hours of his arrest. When acting pursuant to this section and outside of the sworn municipality or county of the school resource officer, the officer shall enjoy all authority, rights, privileges, and immunities, including coverage under the workers' compensation laws that he would have enjoyed if operating in his sworn jurisdiction.

(B) For purposes of this section, a "school resource officer" is defined as a person who is a sworn law enforcement officer pursuant to the requirements of any jurisdiction of this State, who has completed the basic course of instruction for School Resource Officers as provided or recognized by the National Association of School Resource Officers or the South Carolina Criminal Justice Academy, and who is assigned to one or more school districts within this State to have as a primary duty the responsibility to act as a law enforcement officer, advisor, and teacher for that school district.

HISTORY: 1998 Act No. 435, Section 3; 2008 Act No. 267, Section 2, eff June 4, 2008.

Effect of Amendment

The 2008 amendment, in subsection (A), in the first sentence substituted "another" for "any other" in two places and added the third and fourth sentences relating to student arrests.

SECTION 5-7-20. Form and effect of corporate name of municipality.

The corporate name of every city or town incorporated under this title shall be 'the city of " _____"' or 'the town of " _____"', and in such corporate name the municipality shall have all powers granted to municipalities by the Constitution and the general law of this State as fully and completely as though they were specifically enumerated herein.

HISTORY: 1962 Code Section 47-31; 1975 (59) 692.

SECTION 5-7-30. Powers conferred upon municipalities; surtax for parking spaces.

Each municipality of the State, in addition to the powers conferred to its specific form of government, may enact regulations, resolutions, and ordinances, not inconsistent with the Constitution and general law of this State, including the exercise of powers in relation to roads, streets, markets, law enforcement, health, and order in the municipality or respecting any subject which appears to it necessary and proper for the security, general welfare, and convenience of the municipality or for preserving health, peace, order, and good government in it, including the authority to levy and collect taxes on real and personal property and as otherwise authorized in this section, make assessments, and establish uniform service charges relating to them; the authority to abate nuisances; the authority to provide police protection in contiguous municipalities and in unincorporated areas located not more than three miles from the municipal limits upon the request and agreement of the governing body of such contiguous municipality or the county, including agreement as to the boundaries of such police jurisdictional areas, in which case the municipal law enforcement officers shall have the full jurisdiction, authority, rights, privileges, and immunities, including coverage under the workers' compensation law, which they have in the municipality, including the authority to make arrests, and to execute criminal process within the extended jurisdictional area; provided, however, that this shall not extend the effect of the laws of the municipality beyond its corporate boundaries; grant franchises for the use of public streets and make charges for them; grant franchises and make charges for the use of public beaches; engage in the recreation function; levy a business license tax on gross income, but a wholesaler delivering goods to retailers in a municipality is not subject to the business license tax unless he maintains within the corporate limits of the municipality a warehouse or mercantile establishment for the distribution of wholesale goods; and a business engaged in making loans secured by real estate is not subject to the business license tax unless it has premises located within the corporate limits of the municipality and no entity which is exempt from the license tax under another law nor a subsidiary or affiliate of an exempt entity is subject to the business license tax; and a business engaged in operating a professional sports team as defined in Section 12-6-3360(M)(17) is not subject to the business license tax; borrow in anticipation of taxes; and pledge revenues to be collected and the full faith and credit of the municipality against its note and conduct advisory referenda. The municipal governing body may fix fines and penalties for the violation of municipal ordinances and regulations not exceeding five hundred dollars or imprisonment not exceeding thirty days, or both. If the person or business taxed pays a business license tax to a county or to another municipality where the income is earned, the gross income for the purpose of computing the tax must be reduced by the amount of gross income taxed in the other county or municipality.

For the purpose of providing and maintaining parking for the benefit of a downtown commercial area, a municipality may levy a surtax upon the business license of a person doing business in a designated area in an amount not to exceed fifty percent of the current yearly business license tax upon terms and conditions fixed by ordinance of the municipal council. The area must be designated by council only after a petition is submitted by not less than two-thirds of the persons paying a business license tax in the area and who paid not less than one-half of the total business license tax collected for the preceding calendar year requesting the designation of the area. The business within the designated area which is providing twenty-five or more parking spaces for customer use is required to pay not more than twenty-five percent of a surtax levied pursuant to the provisions of this paragraph.

HISTORY: 1962 Code Section 47-58; 1976 Act No. 623, Section 1.

SECTION 5-7-300. Collection of delinquent ad valorem property taxes by municipalities.

(A) All municipalities of the State may provide by ordinance a procedure for the collection of delinquent real and personal property taxes, except taxes on motor vehicles. The municipal governing body may provide for a penalty not exceeding fifteen percent of the taxes levied for nonpayment of these taxes payable when the taxes become delinquent. The property taxes levied, with any penalty added for nonpayment when due and costs of execution, are a lien upon the property upon which the tax is levied until paid. The lien is paramount to all other liens except the lien for county and state taxes. Payment of a lien for state or county taxes, without payment of a lien for

municipal taxes, does not extinguish a lien for municipal taxes. For those municipalities that, as of the effective date of this sentence collect their delinquent municipal taxes without an agreement as to collection with a county, such payment makes the municipal lien a first lien on the property which shall continue in full force and effect until legally discharged.

(B) For the purpose of collecting delinquent real and personal property taxes, the municipal governing body may enforce payment against the property of delinquent property taxpayers to the same extent, and substantially in the same manner, as is provided by law for the collection of county property taxes and penalties, except that a municipal governing body may determine the municipality's tax year, penalty dates, and the amount of penalty to be added on the penalty dates. Executions to enforce the payment of the taxes and penalties must be issued under the seal of the municipality and directed to the person designated by the municipal governing body for that purpose. All sales under and by virtue of that execution must take place at a public place in the municipality designated by ordinance, unless otherwise provided in subsection (D) if the sale is held in conjunction with the delinquent tax sale of the county.

(C) All expense of the levy, seizure, and sale must be added and collected as additional execution costs, and includes, but is not limited to, the expense of taking possession of real or personal property, advertising, storage, identifying the boundaries of the property, and mailing certified notices.

(D) A municipality may contract with the county for the collection of municipal taxes or for the collection of delinquent municipal taxes upon terms and conditions mutually agreeable to both the municipality and the county. If a municipality contracts with a county for collection of municipal taxes or delinquent municipal taxes, the provisions of state law that prescribe the procedure for collection of property taxes by counties must be followed. A delinquent tax sale for the purpose of collecting municipal taxes and held in conjunction with a delinquent tax sale for the purpose of collecting county taxes may take place at the public place in the county that is designated by the county.

(E) A municipality may contract by ordinance with an individual, firm, or organization to assist the municipality in collecting property or business license taxes.

Walhalla, SC 29691

May 15th, 2023

Dear Walhalla City Council Members,

Since 2018, The Oconee Cultivation Project's (OCP) Re-Fresh Community Gardens have worked to create an educational, shared garden space in areas requesting access to affordable fresh food in Oconee County. Re-Fresh programming provides the community with resources and educational workshops to make growing, acquiring, and preparing fresh food accessible for those desiring the opportunity.

Oconee Cultivation Project would like to continue to manage the established community garden located at the Walhalla City Pool located at 101 N Maple St. The Oconee Cultivation Project is responsible for maintaining the garden and a 10 foot perimeter around the raised garden beds in a neat and orderly manner and are open to communication regarding maintenance of the site as-needed. OCP will organize volunteers and staff work days and educational workshops.

OCP again requests the The City of Walhalla, as before, to provide water for the community garden at no cost. The garden beds will be planted by community volunteers, the product grown is open to the public and free for anyone to take what they need.

If you have any other questions or concerns, you can reach us at our email oconeecultivationproject@gmail.com or call James Toye at 828.384.4275.
